• Writing

- a) There are different schools of thought regarding the social media. Some people see the benefits while others see problems in them. What are your observations? Explain the advantages and disadvantages of the social media giving your position in it.

Ans

Social Media

Social Media has become one of the most influential parts of modern life. It helps people stay connected with friends and family, share ideas, and access information from around the world in seconds. It is also a powerful tool for education, business, and awareness programs. For ~~example~~ students, it can be a source

of learning, and for professionals, it offers opportunities to grow their careers. These benefits show that social media, if used wisely, can bring people closer and make life easier.

On the other hand, Social media also has disadvantages. Many people waste their valuable time scrolling, chatting, and playing online instead of studying or working. It can spread false information, increase cyberbullying, and even affect mental health. ~~Accord~~ Addiction to social media reduces face-to-face interaction and creates problems in real life. In my opinion, social media is good if we use it in a balanced way, but it becomes harmful if we misuse it. Therefore, we should use social media responsibly to gain benefits and avoid problems.

b. What is cyber bullying? What are its effects? How can it be stopped?

Ans. Cyberbullying is the act of harassing, threatening, or insulting someone through digital platforms like social media, messages, or emails. It often happens anonymously, which makes the victim feel scared, lonely, and unsafe. Unlike normal bullying,

Date _____
Page _____

cyberbullying can spread quickly and reach many people, making the situation worse.

The effects of cyberbullying are very harmful. Victims may suffer from stress, low confidence, depression, or even think of harming themselves. To stop it, people should use the internet responsibly, report abusive content, and raise awareness about safe online behavior. Parents and teachers should also guide children about proper use of technology.
