

Group 'B' [BOTANY]

Give short answer to the following questions.

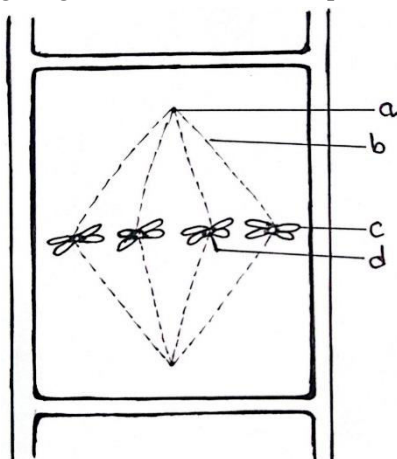

[4 × 4 = 16]

7. Describe food web & food chain in any ecosystem that you have studied. [2+2]
8. Which cell division is responsible for healing of wound? Distinguish between mitosis and meiosis. [1+3]
9. Why pteridophytes are called vascular cryptogams? Describe prothallus of fern. [1+3]

OR

Why nucleus is called CPU of the cell? Describe the structure of Nucleus. [1+3]

10. Study the following diagram and answers the questions. [1×4]

- i. Name the stage of cell division. [0.5]
- ii. Labell the parts a, b, c & d. [0.5×4]
- iii. Write down most important event occurring in this stage. [0.5]
- iv. Write down one significance of this cell division. [1]

Group 'C' [BOTANY]

Give long answer to the following questions.

[8 × 2 = 16]

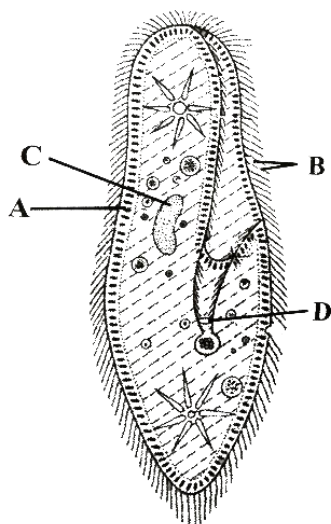

11. Define biogeochemical cycle. Describe nitrogen cycle in detail. [1+7]
12. Describe the family Liliaceae in semi technical terms with floral formula and floral diagram. Also state the scientific names of any two economic plants of the family. [3+4+1]

OR

What is the common name of *Mucor*? Describe the life cycle of *Mucor*. [1+7]

20. Describe how biochemical evidence support organic evolution. [4]

21. Look at the figure below. [1×4]

- Label A, B, C and D
- What is the function of A and C?
- Give the caption for the figure.
- Which of this help in locomotion?

Group 'C' [ZOOLOGY]

Give long answers to the following questions. [2 × 8 = 16]

22. Draw a well labelled diagram of reproductive system of earthworm and explain female reproductive parts. [4+4]

OR

Discuss the physiology of digestion of food in the alimentary canal of frog.
Express various enzymatic reactions. [6+2]

23. Name the theory of evolution purposed by Darwin. Enumerate the key concepts in the evolution theory of Darwin. [1+7]

ॐ The End ॐ
