

Pre-Board Examination - 2079

Class : XII

Subject: Computer Science (4281)

Full Marks: 50

Time: 2 hrs.

Set - A

Pass Marks: 20

Candidates are required to give their answers in their own words as far as practicable. The figures in the margin indicate full marks.

Group 'A'

Multiple choice Questions

[9 × 1 = 9]

Rewrite the best alternative of each question in your answer sheet.

```
<script>
    var x= 3 + '5';
    document.write(x);
</script>
```

a) 8

b) Logical Error

c) Runtime Error

d) 35

5. Which of the following is not true?
- a) PHP can be used to develop web applications.
 - b) PHP makes a website dynamic
 - c) PHP applications cannot be compiled
 - d) PHP cannot be embedded into HTML
6. What will be the output of the following code?

```
void main( )  
{  
    int n, *p;  
    n=25;  
    p= &n;  
    *p+=5;  
    printf(“%d”, n);  
}
```

- a) 25
 - b) 30
 - c) Address of n
 - d) None of the above
7. If a function can perform more than one type of tasks, where the function name remains same, which feature of OOP is used here?
- a) Encapsulation
 - b) Inheritance
 - c) Polymorphism
 - d) Abstraction

- a) Testing
 - b) Design
 - c) System Implementation
 - d) System Maintenance
9. is a term expresses computer-based simulated environments which can perceive as in the real world, as well as in unreal worlds.
- a) AI
 - b) IOT
 - c) Cloud Computing
 - d) Virtual Reality

Group 'B'

Give short answer to the following questions.

[5×5=25]

1. What is normalization? Why normalization is importance in database designing? Explain 2NF.

OR

Explain Network Database Model and Relational Database Model with their advantages and disadvantages.

2. Write a program to find the greatest number among the three numbers in JavaScript.

OR

What is PHP? Write a basic structure of PHP. Explain the characteristics of PHP.

3. Differentiate between Object oriented and structured programming language.
4. What is feasibility study? Explain the types of feasibility study.
5. Explain the term IOT, Big Data and Cloud Computing.

Group 'C'

Give long answer to the following question.

[2×8=16]

6. What is computer network? Explain the types of computer network.
7. Write a program that reads roll_no, name and age of 50 students and display the same record on screen using structure.

OR

Write a program to store employee id, employee name, employee salary of 50 employees into “employee.txt” file and display each record on the screen.

*****Best of Luck*****
