 - return-type function-name (argument type);
 - return-type function-name (only one argument);
 - return-type function-name (argument type)
 - return-type function (argument type);

6. What is the output of C program?

```
void main()
{
    int b=25;
        // b memory location =1234;
    int *p;
    p=&b;
    printf("%d%d",&b,p);
}
```

- a) 25 25 b) 1234 1234
c) 25 1234 d) 1234 25
7. Which feature of OOP is illustrated the code reusability?
a) Polymorphism b) Abstraction
c) Encapsulation d) Inheritance
8. Which of the following corrects the run time errors during the operation?
a) Corrective Maintenance b) Adaptive Maintenance
c) Perfective Maintenance d) All of the above
9. Which is the oldest software development model?
a) Spiral Model b) Iterative Model
c) Waterfall Model d) Prototype Model

Group 'B'

Give short answer to the following questions.

[5×5=25]

1. What is database model? Explain any two database model with their merit and demerits.
2. What is transmission media? Explain the twisted pair cable and fiber optic cable.
3. WAP to find the greatest number among the three numbers using pointer.
4. Differentiate between structure programming and object-oriented programming.
