

First Terminal Examination – 2082

Class : XI

Subject: C. English (0031)

Full Marks: 75

Time: 3 hrs.

SET B

Pass Marks: 30

Candidates are required to give their answers in their own words as far as practicable. The figures in the margin indicate full marks.

1. Read the passage given below and answer the questions that follow.

Magnetic therapy, which is a \$5-billion market worldwide, is a form of alternative medicine which claims that magnetic fields have healing powers. Magnetic devices that are claimed to be therapeutic include magnetic bracelets, insoles, wrist and knee bands, back and neck braces, and even pillows and mattresses. Their annual sales are estimated at \$300 million in the United States and more than a billion dollars globally. They have been advertised to cure a vast array of ills, particularly pain.

The therapy works on the principle of balancing electrical energy in the body by pulsating magnetic waves through different parts of the body. The electrical currents generated by magnets increase the blood flow and oxygen which helps to heal many of the **ailments**. The natural effects of the Earth's magnetic field are considered to play an essential role in the health of humans and animals. It is generally accepted that our body draws some benefit from the Earth's magnetic field. To restore the balance within, our body allows us to function at our optimum level. For example, when the first astronauts returned to earth sick, NASA concluded that their illness resulted from the lack of a **planetary** magnetic field in outer space. To resolve the problem, NASA placed magnets in the astronauts' space suits and space travel vehicles, and astronauts have returned to Earth healthy ever since.

Historically it is reported that magnets have been around for an extremely long time. The therapeutic power of magnets was known to physicians in ancient Greece, Egypt and China over 4000 years ago, who used naturally magnetic rock – lodestone – to treat a variety of physical and psychological ailments. Cleopatra the beautiful Egyptian queen was probably the first celebrity to use magnets. It is documented that in order to prevent from aging, she slept on a **Lodestone** to keep her skin youthful. Ancient Romans also used magnet therapy to treat eye disease.

The popularity of magnet therapy in the United States began to rise during the 1800s and soared in the post-Civil War era. Sears-Roebuck advertised magnetic jewelry in its catalog for the healing of virtually any ailment. An Austrian psychoanalyst by the name of Wilhelm Reich immigrated to the United States in 1939

and researched the effects of **electromagnetism** on humans. Today, Germany, Japan, Israel, Russia and at least 45 other countries consider magnetic therapy to be an official medical procedure for the treatment of numerous ailments, including various **inflammatory** and neurological problems.

For those who practice magnetic therapy, strongly believe that certain ailments can be treated if the patient is exposed to magnetic fields while at the same time there is a strong resentment from the medical establishment and critics claim that most magnets don't have the strength to affect the various organs and tissues within the body and it is a product of **Pseudoscience** and is not based on proper research and analysis. There are few reported complications of magnetic therapy and the World Health Organization says a low level of magnetic energy is not harmful. Documented side effects are not life-threatening and include pain, **nausea** and dizziness that disappeared when the magnets were removed. If considering magnet therapy, as with any medical treatment, it is always advisable to consult one's regular physician first. Magnet therapy is gaining popularity; however, scientific evidence to support the success of this therapy is lacking. More scientifically sound studies are needed in order to fully understand the effects that magnets can have on the body and the possible benefits or dangers that could result from their use.

A. Mark the statements True, False, or Not Given. [5×1=5]

TRUE If the statement agrees with the information given in the text.

FALSE If the statement contradicts the information given in the text.

NOT GIVEN If there is no information in the text.

- a. NASA determined that the illness of astronauts in space was due to the absence of a terrestrial magnetic field.
- b. Cleopatra used magnetic rocks to cure her chronic headaches.
- c. Magnetic therapy is recognized as an authorized medical procedure in some countries.
- d. According to the passage, magnets are powerful enough to heal all kinds of diseases.
- e. The World Health Organization has recognized magnetic therapy as an effective medical practice.

B. Complete the following sentences using the words highlighted in the text. Two of these words are not necessary. [5×1=5]

- a. Some people argue that magnetic therapy is a result of rather than real science.
- b. The astronauts' illness was attributed to the absence of a magnetic field in space.
- c. The electrical currents produced by magnets heal several
- d. Some side effects of magnetic therapy are pain, and giddiness.
- e. A researcher went to the USA to study the effect of on human beings.

- C. Give short answers to the following questions in ONE SENTENCE each.** **[5×1=5]**
- a. What claim does magnetic therapy make?
 - b. Which countries officially recognize magnetic therapy as a medical procedure?
 - c. How did NASA solve the health problem faced by astronauts in space?
 - d. What ailments did ancient physicians use lodestones to treat?
 - e. Why do critics doubt the effectiveness of magnetic therapy?
- 2. Write short answers to the following questions in about 75 words each.** **[5×2 = 10]**
- a. What is the central message of the poem 'Corona Says'? (*Corona Says*)
 - b. What did the Giant experience due to his selfish nature? (*The Selfish Giant*)
 - c. Explain two symbols and their significance in the play *Trifles*.
 - d. How did the Snow and the Frost impact the Giant's Garden? (*The Selfish Giant*)
 - e. What is Oral Tradition? Why is it important? (*Sharing Tradition*)
- 3. Write long answers to the following questions in about 150 words each.** **[2×5 = 10]**
- a. Do you believe that Mrs. Wright killed her husband? Explain with supporting evidence from the text. (*Trifles*)
 - b. What are the four major problems developed by LaPena with regard to maintaining the oral tradition? How are they used to structure the essay? (*Sharing Tradition*)
- 4. Write a couple of paragraphs in about 150 words on any one of the memorable incidents that you have experienced or witnessed.** **[7]**
- 5. Suppose you are living away from your family for your education. You feel homesick time and again and miss your family too much. Write an email to your parent describing the difficult situation you are going through at present.** **[8]**
- 6. Social media has now become a global and essential phenomenon because of its massive use and popularity. Write an essay on the topic 'Redefining Human Connection in the Age of Social Media' in about 300 words.** **[10]**

7. Do as directed and rewrite the sentences.

[10×1 = 10]

- a. I cannot tolerate extreme pain. (*Identify the word class of the underlined words.*)
- b. Only the skeleton branches of the tree were left. (*Underline the **adverb** in this sentence.*)
- c. Who is your brother among those boys? (*Underline **pronoun** in this sentence.*)
- d. My parents don't shout at me. (*Interpose '**always**' in the right position.*)
- e. The thief went (**from/out of/into**) the house and ran away. (*Select the right option to complete the sentence.*)
- f. They took the both flight. (*Rewrite the sentence placing the underlined word in the right place.*)
- g. Why did you.....(throw) the cap away? (*Decide the correct form of verb to complete the sentence.*)
- h. The soldier walked.....the rope. (*Use the appropriate preposition in the blank.*)
- i. They..... (**be**) too fast in working today. (*Use the correct form of verb from the brackets to complete the sentence.*)
- j. They should (**found/find/finds**) the place on time. (*Choose the correct option from the brackets to complete the sentence.*)

8. Choose and copy the correct option.

[5×1 = 5]

- a. The abbreviation **U** in the dictionary means:
 - i. Undeveloped
 - ii. Uncountable
 - iii. Unwanted
 - iv. Unitary
- b. Choose the correct headword for guide words '**Monomer- Mononuclear**':
 - i. Monograph
 - ii. Monogamy
 - iii. Monomeric
 - iv. Monodrama
- c. Which of the following is not an adjective?
 - i. Colony
 - ii. Rainy
 - iii. Sunny
 - iv. Shiny
- d. Which of the following is not the correct use of the prepositional verb '**charged with**'?
 - i. The police charged him with theft.
 - ii. She was charged with organizing the school event.
 - iii. The company was charged with failing to comply with the rules.
 - iv. She was charged with a bullet.
- e. The word '**brevity**' means:
 - i. Courage
 - ii. Victory over a place
 - iii. Alike
 - iv. Lasting only a short time
